

ADABALA SEETHA SRIRAM

+91 8499971123 | sriramadabala350@gmail.com | github.com/sriramadabala2005 | linkedin.com/in/sriramadabala

Education

Amrita Vishwa Vidyapeetham – B.Tech in Computer Science (AI) Sept 2023 – Apr 2027

- SGPA: 8.33/10 | CGPA: 8.17/10
- Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, Machine Learning, Deep Learning, RAG, Generative AI, Agentic AI.

Experience

Systema Ops – AI Intern 2026

- Contributed to an AI-driven business management platform, working with AI-assisted workflows and business process automation.
- Worked with inventory, sales, POS, and accounting modules, understanding requirements and integrating them into application workflows.
- Assisted in testing AI-enabled functionality, debugging issues, and validating system outputs across business scenarios.

Projects

Driver Drowsiness Detection System – Real-time ML Monitoring [GitHub] 2025

- Built a real-time ML drowsiness detection system using 2,000 webcam images, extracting Eye Aspect Ratio, Mouth Aspect Ratio, and Head Pose from MediaPipe landmarks.
- Compared Random Forest, Gradient Boosting, and SVM, achieving 93% accuracy with Random Forest.
- Developed a 4-level alert system for Alert, Microsleep, Drowsy, and Extreme Fatigue states at 20–30 FPS.

Multi-Object Detection for Kitchen Safety – YOLOv8 [GitHub] 2025

- Developed a real-time computer vision system for kitchen hygiene and safety monitoring using a custom-trained YOLOv8s model.
- Combined multiple datasets to detect PPE compliance, pests, and food freshness across 30 classes using transfer learning.
- Implemented tiled inference and a Streamlit web application for detection, confidence tuning, and result visualization.

Social Media Platform – DBMS Project 2025

- Designed a relational database supporting posts, stories, comments, likes, messaging, followers, hashtags, and tagged users.
- Developed an ER model with one-to-many, many-to-many, and self-referential relationships.
- Implemented normalized schemas and junction tables for data integrity and efficient retrieval.

Skills

- Programming: C++, Python, SQL
- AI/ML: Machine Learning, Deep Learning, Computer Vision, YOLOv8, MediaPipe, RAG
- Core: Data Structures & Algorithms, OOP, Operating Systems, DBMS
- Tools: Git, VS Code, MySQL, Streamlit

Certifications

- Oracle Certified AI Foundations Associate – Oracle
- Data Structures & Algorithms – CIR, Amrita Vishwa Vidyapeetham
- MySQL and Database Design – Scaler
